Astrata is focused on advanced location-based IT services and solutions (telematics) that combine GPS positioning, wireless communications (satellite or terrestrial) and geographical information technology, which together enable businesses and governments to monitor, trace as well as control the movement and status of machinery, vehicles, personnel or other assets.

Astrata has designed, developed, manufactured and currently supports ten generations of telematics systems with units deployed worldwide.

Astrata has offices throughout the world including the Middle East, United States, Europe, New Zealand, Australia and Asia.
